

BIG 6, LLC

Combat-Disabled, Veteran-Owned and American Made

VAST⁶ was designed to protect your irreplaceable valuables: Children, family, and friends.

BIG 6, LLC is the developer/producer of a revolutionary and dynamic personnel protection system, protecting against both active shooters, and tornado threats to schools and businesses. The VAST⁶ is custom built to accommodate size constraints and your specific needs.

VAST⁶ (US, European and Israeli Patents Issued): Vault for Active Shooter and Tornado has completed final production testing and evaluation and is ready for full-scale production.

We offer innovative, collapsible active shooter protection systems, deployed in less than 20 seconds, meeting FEMA requirements for active shooter and tornado protection, rated at F-5.
